FEMALE SOCCER ACADEMY

## HALF WAY THROUGH THE SPRING SEASON...

*THE ADK LYNX FOCUS ON INDIVIDUAL SKILL*

=

*TEAM SUCCESS*

Training started in November for most of our dedicated girls. Many did not even know the names of girls that were training next to them. Girls came to the Lynx from all along the Northway from Minerva to Saratoga because they wanted more! Throughout the winter each athlete in the Lynx Academy has focused on making themselves better by enduring weekly futsal matches, core fitness, training 2x-3x week, as well as participating in scheduled friendly matches, tournaments and indoor league play.

Demonstrating 1-on-1 Coerver moves that he has learned while spending time in Lake Placid at the Coerver Training Coaching Academies.

With our spring season half over, how have the girls from all over the north country done when faced with the challenges of putting their collective skills together? As trainers we have seen so much personal growth in each individual technically and mentally. However, does the past 7 months training to do individual things correctly equate to team success? Let the statistics speak for themselves. The trainers have challenged our local talent pool to play at a higher league level than ever and our girls have responded! The U10 team is 3-2-1. one U12 team is 4-2 and our Division 1 u12 team is 2-2-2. This team just hit their stride by scoring 15 goals in their last 3 matches. The U14 players have shown us all just what it means to be a team. Without a true experienced goalie, many field players have stepped in and "done their turn". They are undefeated at 3-0-2. The U16 team is 3-0-1. The u19 girls are still trying to find themselves due to injuries, as well as many of these players doubling up with spring high school sports have left themselves short handed at times. It also doesn't help that many of these teams have been together for 5-7 years. Keep up the great work Lady Lynx!
